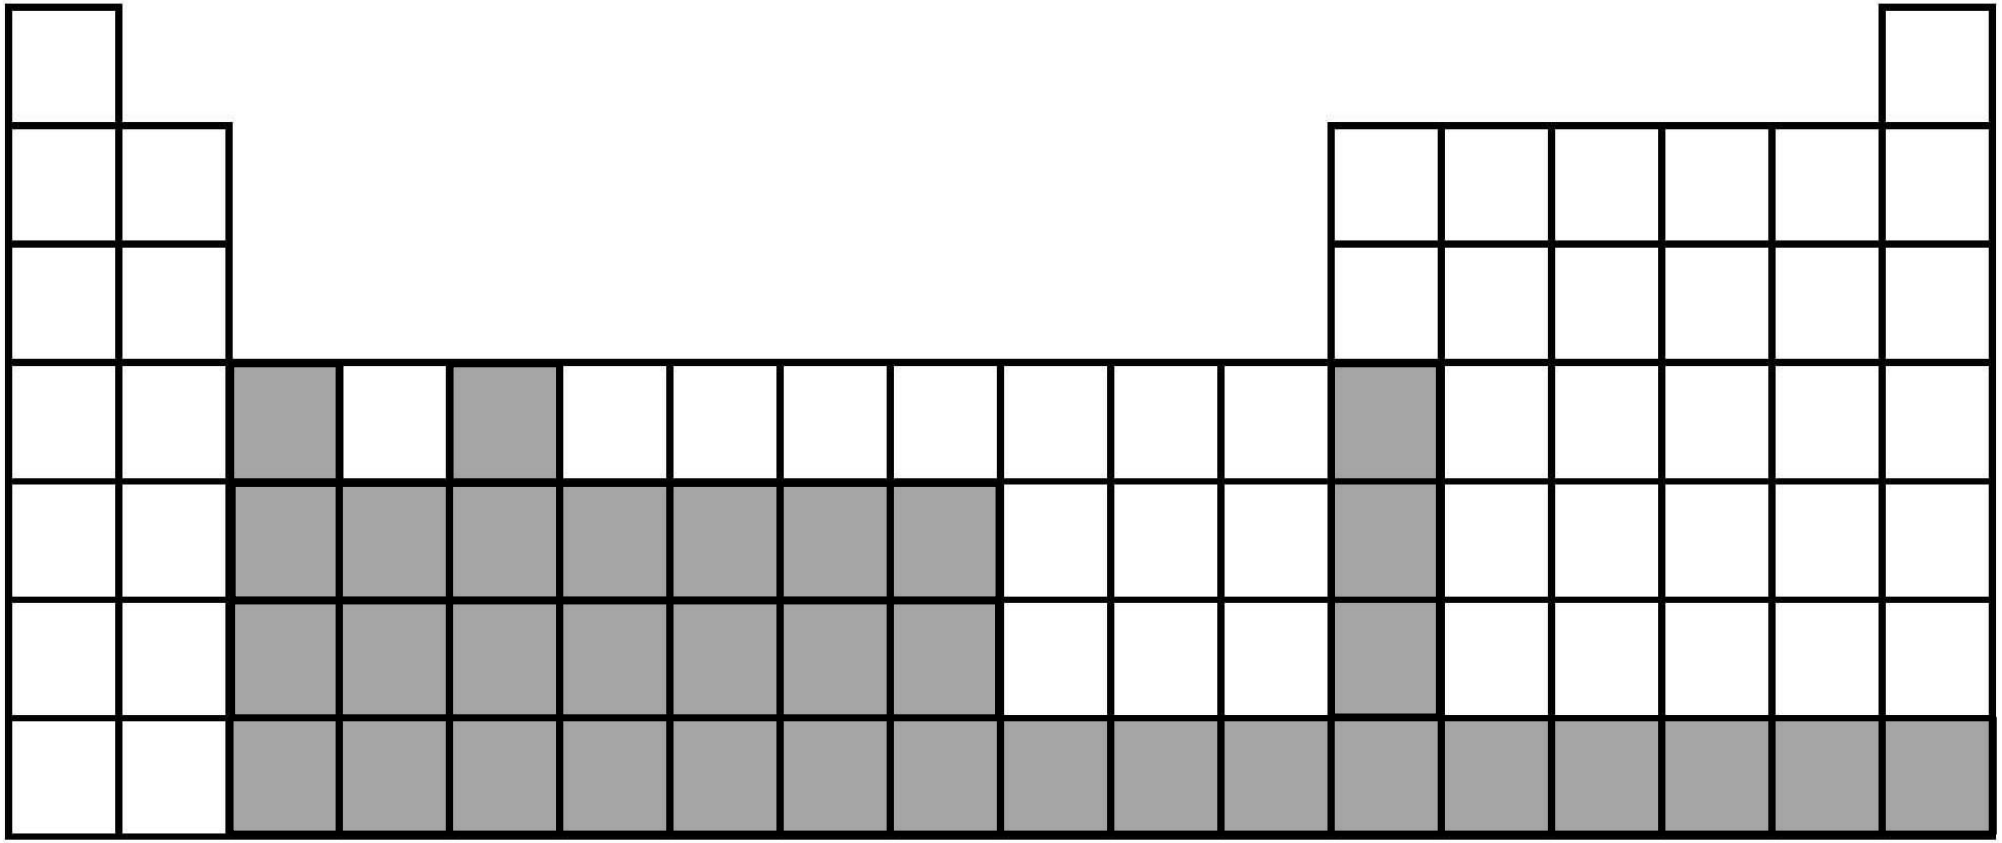
Name: …….. Group: …… 2ºESO Physics&Chemistry
Periodic Table


1. Number the GROUPS (columns) and PERIODS (rows)
2. Write down the name and symbol of each element (only the ones on the white cells)
3. Indicate the Atomic Number (Z) of each element on the top left corner of its cell.
4. Colour the cells according to this pattern:
   - Metals: Alkali (orange), Alkaline earth (yellow), Transition metals (pink), Post-transition metals (blue)
   - Metalloids (green)
   - Non-metals: Noble gases (purple), Halogens (red), Other non-metals (white).
5. What do elements in the same PERIOD have in common? ……
